

Jan Eraseo Mari A. Llanto

Rosario, Cavite | 0955-914-5736 | llantojem@gmail.com | [Portfolio Link](#)

Full-Stack Web Developer

PROFESSIONAL SUMMARY

Motivated and detail-oriented graduate with a degree in Bachelor of Science in Information Technology. Strong foundation in Web Development, with hands-on experience through academic projects and internships. Eager to apply knowledge and grow professionally while contributing to team success.

PROFESSIONAL EXPERIENCE

BOLIM Auto Parts, Rosario, Cavite

Web Programmer/IT Staff | Oct 2025 – Feb 2026

- Developed, deployed, and maintained an **Inventory Management System** used by internal teams to streamline stock tracking and operations.
- Provided technical support by troubleshooting network issues and resolving hardware/software problems.
- Assisted in maintaining IT infrastructure, improving overall system efficiency and minimizing downtime.

Cavite State University – CCAT Campus Registrar’s Office, Rosario, Cavite

Web Developer Intern | Feb 2025 – April 2025

- Developed a **Registrar’s Online Request System** that streamlined document requests, reducing manual processing and improving turnaround time.
- Automated document request workflows, minimizing paperwork and enhancing accuracy in record handling.
- Improved accessibility by allowing students to submit and monitor requests online, increasing convenience and reducing in-office workload.

PROJECTS

BOLIM Spare Parts Inventory Tracking System

React | TailwindCSS | Node.js | Express | MySQL

- Engineered a full-stack inventory management system supporting real-time stock monitoring and automated record updates.
- Developed RESTful APIs and integrated a SQL database to ensure efficient data storage and retrieval.

Registrar’s Online Request Management System

React | Bootstrap | Node.js | Express | MySQL

- Developed a web-based system to digitize and streamline student document requests, reducing reliance on manual processing.
- Implemented request submission and tracking features, allowing users to monitor request status in real time.
- Automated workflow processes, improving efficiency and minimizing errors in request handling.
